

6 Powerful ways to pair students

@ValentinaESL

To support language development, pair English learners in triads with a same language speaking peer and an English speaking model.

interests

language

Partners that are working on similar skills, concepts or objectives.

skill

friends

Pair students with a buddy when content is especially difficult to lower the affective filter.

random

Partners that are randomly selected by drawing names, numbers, sticks, etc.

level

Pair students who are at similar levels together.
